

Update on Recent Changes:

- Focus on equipment while **Generation and Storage Technologies** section
- Clarified *Generation Technologies* and *Storage Technology* List
- Moved *Resource Type* List to **Energy Use** section
- Detail for technology-specific characteristics as well as general characteristics for several technologies
 - PV system detail (see spreadsheet)
 - Wind and PV characteristics (see spreadsheet)

- Energy Generation Technology
- Storage Technology
- Characteristics for Technologies:
 - For PV only
 - General description included to refer to characteristics for more than one technology
 - E.g., “modules” is applicable to wind and PV
 - Further organization
